1DIR	
Description	Information
Supposedly the oldest full-screen DOS shell, introduced in 1983. The well-known XTree and Norton Commander were not even in the project yet. Later it was developed in the form of the 1DirPlus program.	Operating System: DOS Requirements: DOS 2.0 and above Developer: Greg Harley, Chris Severud (Bourbaki, Inc.) Publisher: - ⬇ Скачать ©

2xExplorer	
Description	Information
Dual pane file manager for Windows 9x and NT.	Operating system: Windows 9x Requirements: Windows 95 and higher Developer: Nikos Bozinis Publisher: - ⬇ Скачать ©

4DOS	
Description	Information
The most powerful shell. Command line replacement with a huge number of features. Installed under all systems, including Windows XP.	Operating system: - Requirements: - Developer: JP Software Inc. Publisher:- ⬇ Скачать ©

4DOS/4NT	
Description	Information
4DOS 8.0 and 4NT 8	Operating system: - Requirements: - Developer: - Publisher: - Скачать

4Sight	
Description	Information
File manager. Fundamentally new - nothing. But good for collection :)	Operating System: - Requirements: - Developer: Jack Walton Publisher: - Скачать

4win	
Description	Information
The program is similar to 4DOS, but only for Windows. A kind of command line	Operating system: Windows 3.x Requirements: - Developer: ? Publisher:- Скачать

ActaeOn	
Description	Information
A single-pane file manager that has its pros and cons. Of the benefits: a built-in viewer for text and binary files in hexadecimal code, viewing pictures in GIF format, a built-in simple text editor. Of the minuses: it takes 200 kb of memory, you cannot work with the DOS command line. You can only temporarily exit to DOS and return back, can only delete empty directories, each disk should have a maximum of 511 directories and 7200 files.	Operating system: DOS Requirements: DOS 3.01 or higher Developer: Jon Clempner Publisher: - Скачать

Dos Navigator 7.2.x My	
Description	Information
Lite version	Operating system: - Requirements: - Developer: - Publisher: - 📥 Скачать ©

DOS Navigator Open Source Project (OSP)	
Description	Information
Sequel to DOS Navigator. Now as an Open Source Project. One of the best shells for DOS machines. Includes many built-in utilities, such as a CD player, text editor, disk formatting utilities, a calculator, the ability to work with DOS archivers and other useful little things.	Operating system: DOS Requirements: - Developer: - Publisher: - 📥 Скачать ©

DOS Shell	
Description	Information
Microsoft's first attempt to create its own wrapper program for COMMAND.COM. It was called DOSSHELL and was first included in MS DOS 5.0.	Operating System: DOS Requirements: 80286 Developer: Microsoft Publisher: -

dosview	
Description	Information
Another file manager similar to Dos Navigator. Version 4.1.	Operating system: MS DOS Requirements: - Developer: - Publisher: -

Dozip Commander

Description	Information
File manager (NC clone) for DOS with built-in zip support.	Operating System: DOS Requirements: - Developer: Hjort Nidudsson Publisher: SourceForge.net

DualTools	
Description	Information
One-panel file manager for copying/moving and deleting both one and selected groups of files and directories, launching executable BAT/COM/EXE files. It has a separate ASCII text viewer and a full featured text editor. It occupies 143 kb of standard memory. Supports mouse control.	Operating system: DOS Requirements: DOS 2.17 or higher Developer: Frank Sawchuk Publisher: -

EASYFILE

Description	Information
EASYFILE is designed to greatly simplify the management of files on your hard drive, especially archive files. Two different sorted directories are displayed side by side, allowing you to select both individual files and groups of files.	Operating system: DOS Requirements: DOS 3.0 or higher Developer: Dennis R. LaBelle Publisher:-

EDDY

Description	Information
EDDY File and Directory Manager (EDit DirectorY): - Full screen editor and directory manager; - Editor of sectors; RAM editor; - File search, viewer, fix and compare; - Search/replace strings (hexadecimal and/or ASCII); - File backup and data recovery utility; and much more... EDDY requires MS-DOS 2.0, PC-DOS 2.0 or later and uses approximately 180 KB of memory. Supports OS/2	Operating system: DOS Requirements: DOS 2.0 or higher Developer: John Scofield Publisher: - ⬇ Скачать ©

EF Commander

Description	Information
A two-pane file manager with tons of features, similar to Norton Commander.	Operating system: Windows 9x Requirements: - Developer: Emil Fickel Publisher: - ⬇ Скачать ©

Egress DOS Manager

Description	Information
A two-pane, simplest in terms of functionality graphical manager.	Operating system: DOS Requirements: DOS 3.0 or higher Developer: Robert Steinbach Publisher:- ⬇ Скачать ©

ELFTree

Description	Information
One-pane file manager for copying/moving and deleting both one and selected groups of files and	Operating system: DOS Requirements: DOS 3.0 or higher

directories, launching executable
BAT/COM/EXE files. It has a built-in ASCII
text/hexadecimal code
viewer and convenient mouse control.
When using high
memory, ELFTree takes only 2 kb. standard.

Developer: Alan J. Avery
Publisher: -

Скачать

Exec DOS

Description	Information
A simple file manager for copying / moving and deleting one or more selected groups of files and directories, launching executable BAT / COM / EXE files (when running programs from the Exec shell, DOS leaves them only 388 kb of standard memory out of 640).	Operating system: DOS Requirements: - Developer: Amaury M. Valdes Publisher:- Скачать

Explor2000

Description	Information
A file manager for Windows positioned as a replacement for Explorer. Supports dual-pane mode (however, without hot keys standard for NC-like shells), there is a built-in viewer (including pictures), work with ZIP archives, etc. is supported.	Operating system: Windows 9x Requirements: - Developer: Christian Maufroy Publisher:- Скачать

Extendos

Description	Information
One-pane file manager.	Operating System: DOS Requirements: - Developer: Wayne Howarth Publisher: - Скачать

Extra User Add-On Pack for DN 6.40

Description	Information
additional screensavers, color schemes and Christmas icons	Operating system: MS DOS Requirements: - Developer: - Publisher: -

F	
Description	**Information**
Free multi-platform console two-pane 32-bit file manager with many features. F's main features: multiple file window display, full support for ZIP archives, built-in file viewer and editor, network support.	Operating system: Windows Win9x/NT/2K, OS/2 Requirements: - Developer: Duy Nguyen/Michel Normand. Publisher:-

FAR

Description	Information
Popular shell. From the author of RAR.	Operating system: - Requirements: - Developer: Eugene Roshal Publisher: -

FILE COMMANDER	
Description	**Information**
A two-panel file manager for copying/moving and deleting both one and selected groups of files and directories, launching executable BAT/COM/EXE files. It has a built-in ASCII text viewer and a hex editor. Takes up 51 KB of standard memory.	Operating system: DOS Requirements: DOS 2.0 or higher Developer: J. Lawrence Nafziger Publisher: -

File Commander/W

Description	Information
Console file manager for 32-bit Windows 98/XP. Provides standard functions for managing files, launching programs, viewing and editing text, built-in support for archivers (ZIP, ARJ, RAR, LZH, ACE) in text mode.	Operating system: Windows Requirements: - Developer: Brian Havard Publisher: -

File Command II	
Description	**Information**
Powerful file manager with built-in text and hex code viewer, full featured text editor and disk editor. It has rich opportunities for working with files / directories and flexible settings of the file manager itself.	Operating system: DOS Requirements: DOS 2.10 or higher Developer: Sandi & Shane Stump Publisher: Progressive Solutions, Inc.

file manager	
Description	**Information**
A two-panel file manager for copying/moving and deleting both one and selected groups of files and directories, launching executable BAT/COM/EXE files (when launching programs from the File Manager shell, it leaves them with 94 kb of standard memory out of 640). Supports mouse control.	Operating system: DOS Requirements: - Developer: Robert Ossowski Publisher: RO-Soft Systems

File Manager by TORiUM	
Description	**Information**
One of the many clones of Norton Commander but with some author's ideas. The manager can work in Windows 9x and partially in NT, but it is limited because it does not support long filenames. There are built-in ZIP and ARJ decompressors (external PKUNZIP and ARJ archivers are not required). There is a built-in file viewer, but it is slow, and file editing is implemented by the external editor Swift Programmers Editor.	Operating system: DOS Requirements: - Developer: Tamas Selmeci(TORiUM) Publisher: -

File Maven	
Description	**Information**
Advanced file manager with the ability to transfer files between PCs via cable - null modem or parallel.	Operating system: DOS Requirements: - Developer: Kent Briggs/Briggs Softworks Publisher: -

File Navigator	
Description	Information
File manager for Win32 with a graphical interface. Coloring files, unlimited number of color groups. FTP client. Drag and drop. Comparison and synchronization of folders. Working with file descriptions View archives. Customizable color scheme. File filter by date, size, attributes. Command line with the ability to view the results of commands.	Operating system: Windows 9x/NT/ XP Requirements: - - Developer: Alexander Kolomiets Publisher: - Скачать ©

File Plus

Description	Information
A multi-window file manager that uses a source/target method for copying and moving files. It supports compressing and unzipping, as well as viewing and extracting archives and their parts.	Operating System: Windows Requirements: - Developer: Carl W.Moore Publisher: - Скачать ©

File Manager Pro (FM)

Description	Information
A kind of File Manager.	Operating System: DOS Requirements: - Developer: Morten Poulsen Publisher: -

File Plus

Description	Information
A simple file manager for copying/ moving and deleting both one and selected groups of files and directories, launching executable BAT/COM/EXE files. Supports mouse control. Takes 2 kb. standard memory.	Operating system: DOS Requirements: - Developer: - Publisher: Survey Design Associates Limited

File Vision

Description	Information
Graphical full-featured two-pane manager that is designed to have a user-friendly interface and at the same time be very flexible and easily customizable. To run FileVision, you need at least VGA video mode and a 386DX processor or higher.	Operating system: DOS Requirements: DOS 5.0 or higher Developer: Claus Dreyer Publisher: -

FileWorks

Description	Information
Powerful and highly customizable file manager for Win 3.x	Operating system: Windows 3.x Requirements: - Developer: The Art Machine Publisher: -

File_Handle Regular

Description	Information
Professional file and disk management shell for DOS and LAN. Supports multi-argument search for files with global properties, full file manager and file extension associations, special support for removable media such as CD-ROM and magneto-optical devices. The program should be launched through a virtual machine or PCem, because it immediately hangs in a standard DOSBox.	Operating System: DOS Requirements: - Developer: Arjen van Andel Publisher: Hasoft Скачать

Flop Commander

Description	Information
A simple commander for OS Flop OS.	Operating system: Flop OS Requirements: - Developer: Konstantin Publisher: - Скачать

Folder manager

Description	Information
Text file manager Folder Manager - new powerfull file manager (shell).	Operating System: - Requirements: - Developer: ASoft Publisher: - Скачать

Free Commander

Description	Information
An analogue of Norton Commander from Sergey Kosarevsky. Written in Free Pascal. Lots of advanced features such as: LFN support, CD-Player, calculator, background copying of files, syntax highlighting in the viewer, the ability to turn off the computer (albeit from Windows), several beautiful author's screen savers, etc. Unfortunately, the program never came out.	Operating system: DOS/Windows Requirements: - Developer: Sergey Kosarevsky Publisher: - Скачать

| Release Candidate stages (as far as I know) - sometimes works unstable. | |

Frigate

Description	Information

Norton Commander

Description	Information
Norton Commander is a popular DOS file manager originally developed by American programmer John Socha. (Some additional components were written in whole or in part by other people: Linda Dudinyak - Commander Mail, viewers; Peter Bradeen - Commander Mail; Keith Ermel, Brian Yoder - viewers.) The program was released by Peter Norton Computing (headed by Peter Norton), which was later acquired by Symantec Corporation.	Operating System: DOS Requirements: - Developer: Symantec Publisher: - 📥 Скачать ©

Norton Commander for Windows

Description	Information
File manager for Windows 3.1, similar to Norton Commander (at least it has the same feature set). It can successfully replace the standard WinFile file manager from Windows 3.1, since it takes up little space, has more features, and is easier to use.	Operating System: Windows 3.x/9x Requirements: - Developer: Symantec Publisher: - 📥 Скачать ©

Norton Navigator

Description	Information

An attempt by Symantec to create a replacement for the default Explorer in Windows 95. The bundle included Norton File Manager, which supported basic file functions and had built-in FTP client.	Operating system: Windows 9x Requirements: - Developer: Symantec Corporation Publisher:-
In addition to it, the kit included a modified Norton Navigator Desktop, the Norton TaskBar toolbar, and other utilities.	Скачать

nViPER.@box

Description	Information
Dual pane file manager for most 32-bit Windows(95/98/XP) from Slovakia.	Operating system: Windows 9x Requirements: - Developer: NiCK.NEXTI7 / MaRmAR.NEXTI7 Publisher: NEXT17 t Скачать

OSCAR

Description	Information
A simple two-panel file manager for copying/moving and deleting both single and selected groups of files and empty directories, launching executable BAT/COM/EXE files and taking about 70 kb. standard memory. It is buggy in standard DOSBox, it is better to run the program on virtual machines like PCem.	Operating System: DOS Requirements: - Developer: Duane P. Fridley Publisher: - Скачать

OverView Too

Description	Information
File manager with built-in text/hex viewer. Supports from 1 to 6 windows, allowing you to display up to 6 directories (or drives) at the same time. When running programs from the shell, it leaves them with only 523 KB of standard memory out of 640.	Operating system: DOS Requirements: DOS 2.0 or code. higher Developer: James Mathews Publisher: Magee Enterprises Скачать

PathMinder is a file manager made specifically for MS-DOS.	Operating system: DOS Requirements: - Developer: Westlake Data Corporation Publisher:- ⓒ Скачать

PC Valet Shell

Description	Information
Shell for DOS	Operating System: DOS Requirements: - Developer: John A. Junod Publisher: - ⓒ Скачать

PC-DOS Shell	
Description	Information
Compact file shell in Russian. It has a reliable and well-established TASK SWITCH that allows you to load several programs into memory and switch from one to another instantly! Can work in CGA, EGA, VGA, Hercules graphics mode. Allows	Operating system: DOS Requirements: - Developer: IBM Corp. Publisher:- ⓒ Скачать

organize your programs into program groups. Supports multiple color palettes (just like Windows!). In general, the shell is comfortable, reliable and easy to handle.

PFM(Personal File Management)	
Description	Information
File manager with built-in text/hexadecimal viewer code and for copying/moving and deleting both one and selected groups of files and directories, launching executable BAT/COM/ EXE files and occupying 9 kb. standard memory.	Operating system: DOS Requirements: DOS 2.0 or higher Developer: Paul R. Culley Publisher: - Скачать ©

Pie Commander	
Description	Information
Pie Commander - Shell similar to Norton Commander 4.0	Operating system: DOS Requirements: - Developer: Valentin Chernyak Publisher: - Скачать ©

Pinco's Commander	
Description	Information
Another clone of Norton Commander, this time from Italy. The main functions of working with files are available. There is no top menu, some key combinations are different from those in Norton - see help.	Operating System: DOS Requirements: - Developer: Enrico Ferro Publisher: - Скачать ©

power menu	
Description	Information
The shell is based on the principle of a custom menu. It has a tree-like file manager, a bunch of utilities and the function of folding into resident memory.	Operating System: DOS Requirements: - Developer: Brown Bag Software Publisher:- Скачать ©

PROFILE	
Description	Information
Not bad, and in some aspects convenient Operating system: DOS file manager that has no Requirements: - only basic functions to work with files and directories. Systems	Operating system: DOS file manager Developer: - Publisher: MicroGear Software Скачать

PUFF	
Description	Information
PUFF is a directory and file browser that opens on demand. In resident mode, it takes from 29 to 42 KB of memory (depending on installation options). He is running DOS 2 or 3 on any PC model and will work with both mono and color adapters. Once loaded into memory, you can invoke the program at any time by pressing the hotkey, which by default is Alt-D.	Operating system: DOS Requirements: DOS 2.0 or higher Developer: Dave Mitchell Publisher: - Скачать

Q-DOS	
Description	Information
QDOS is an all-in-one DOS file manager.	Operating System: DOS Requirements: - Developer: Gazelle Systems Publisher: - Скачать

Q-DOS Network Manager	
Description	Information
File manager, helps a lot when working with the network	Operating System: DOS Requirements: - Developer: Gazelle Systems Publisher: - Скачать

QFILER

Description	Information
A simple two-panel file manager for copying/moving and deleting both one and selected groups of files and directories, launching executable BAT/COM/EXE files. Can interact with external archivers. Takes 28 kb standard memory.	Operating System: DOS Requirements: - Developer: Kenn Flee Publisher: Jamestown Software ⊡ Скачать ©

QuickDir

Description	Information
One-panel file manager for copying/moving and deleting both one and selected groups of files and directories, launching executable BAT/COM/EXE files. Has a built-in ASCII text viewer. Takes up 167 kb of standard memory.	Operating System: DOS Requirements: - Developer: Jim Olsen Publisher: - ⊡ Скачать ©

Servant Salamander

Description	Information
A simple two-pane file manager that runs under Windows 95 and higher. The first versions resemble a greatly simplified Windows Commander.	Operating system: Windows 9x Requirements: - Developer: Petr Solin Publisher: - ⊡ Скачать ©

Shell-92

CommandDOS	
Description	Information
A rather original "one-and-a-half-panel" file manager. On the left, a narrow bar shows the directory tree, on the right, a wider, standard-view panel - a la Norton Commander. (By the way, the width of the panels can be changed.) Supports multiple windows. Built-in editor and viewer, a standard set of file operations, even has its own screensaver.	Operating system: DOS Requirements: - Developer: Mukhin, Gorsky, etc. Publisher: NTC Intercompeks ⬇ Скачать Ⓒ

NKFM file manager	
Description	Information
Homemade file manager for Windows from a domestic manufacturer.	Operating system: Windows 9x Requirements: - Developer: Nikolai Korotkov Publisher: - ⬇ Скачать Ⓒ
